KEY FEATURES

- Soft thermoplastic rubber tipped temples grip lightly to ensure proper location of the optics without slippage;
- Aluminum-magnesium frame construction generates proper strength and optical stability through a hybrid lightweight metal alloy;
- Hidden spring hinges flex to ergonomcally fit a wide variety of head and face shapes;
- Lightweight construction and proper weight balance guarantee long wearing comfort without pressure points or fatigue;
- Adjustable floating nose pads articulate in 3 dimensions to properly fit and comfortably secure eyewear in place;
- Unique semi-rimless frame design minimizes peripheral distractions.
